 Besides that Russian consumers convert about 1500-2000 tons of scrap per year.

此外,俄罗斯客户每年约消费1500-2000吨钨屑。

** The increase of consumption in 2007 was mainly caused by raising imports of tungsten concentrates which followed cancellation of import tax (5%) in 2007. 由于2007年取消5%进口关税,俄罗斯钨精矿进口量增加, 这成为2007年俄罗斯钨消费量增加的主要原因。
